Standard cubature Kalman filter (CKF) algorithm has some disadvantages in stochastic system control, such as low control accuracy and poor robustness. This paper proposes a stochastic system control method based on adaptive correction CKF algorithm. Firstly, a nonlinear time-varying discrete stochastic system model with stochastic disturbances is constructed. The control model is established ...

Control Optimization of Stochastic Systems Based on ...

Control theory deals with the control of continuously operating dynamical systems in engineered processes and machines. The objective is to

develop a control model for controlling such systems using a control action in an optimum manner without delay or overshoot and ensuring control stability. Control theory may be considered a branch of control engineering, computer engineering, mathematics ...
