List of Saab 340 operators - Wikipedia

The main focus of aircraft production is fighter aircraft. Saab has been making aircraft since the 1930s, and the jet predecessors of the JAS 39 Gripen were the Tunnan, the Lansén, the Draken and the Viggen. The last civilian models made by Saab were the Saab 340 and Saab 2000. Both were mid-range turboprop-powered airliners.

Saab AB - Wikipedia

Development and design. In December 1988, Saab decided to build a stretched derivative of its successful Saab 340 twin-turboprop regional airliner. The new aircraft was planned to meet a perceived demand for a high-speed 50-seat turboprop with good climb performance which could operate over short- and medium-range routes with similar block times to jet aircraft while retaining the efficiency ...

Saab 2000 - Wikipedia

The Saab 340 is a Swedish twin-engine turboprop aircraft designed and originally manufactured by a Saab AB-Fairchild Aircraft partnership. Under the initial arrangement, Saab built the all-aluminum fuselage and vertical stabilizer together with the aircraft's final assembly in Linköping, Sweden, while Fairchild was responsible for the wings ...
